DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 34, line 1, before the word "where", please insert: --39-- because claim 30 was canceled, claim 34 should be depended from claim 39.

Allowable Subject Matter

2. Claims 31-37, 39-41, and 43-47 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

claims 39 and 44 recite, inter alia, "A mounting socket comprising: a plurality of conductive terminals within the vias, each terminal includes a spring extending through one of the vias and a conductive polymer in contact with the spring and with one of the vias; a first adhesive layer affixed to the first side of the body; a polymer tape applied to the first adhesive layer; and a ground and power line circuit on the polymer tape".

3. The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations.

4. Although Kazama (U.S. 6,174,172) discloses an electric contact unit, Kulesza et al (U.S. 5,611,140) discloses an apparatus and a corresponding method of forming electrically conductive polymer interconnects on electrical substrates, they do not disclose the above-mentioned limitations.
